Dear Residents:

In the process of installing a tap on a residents garage at 9042 Cherry Point Road a leak was found in the force main. The majority of the spill was contained, however a small amount did enter the lake at this location. We will be sampling the lake to be sure that it is safe for swimming. We are asking you, as a homeowner near the site, not to swim in the lake at this site until we have the testing results.

We do not believe the spill was large enough to affect the lake, and do not anticipate any problems. You will receive a letter on the sampling results, and further instructions.

Thank you for your patience and cooperation.
