RE: Cambridge Lake
Cambridge Township, Lenawee County

Dear Property Owner:

In response to the property owner request and at the direction of the Lenawee County Drain Commissioner, Spicer Group is currently completing an investigation to determine the feasibility of establishing a legal lake level for Cambridge Lake. As a property owner with deeded access to the lake, we are seeking your input and are asking you to please take the time to fill out the questionnaire that is enclosed. Upon receipt of return, the information you provide will be used in developing our recommendation of the lake level elevation.

For the proposed lake level, please indicate the water elevation you would desire from the top of your dock down to the water surface. If you do not have a dock, please use a neighbor's dock for a reference point or indicate your preference. You will need to indicate which neighbor's dock you use by putting their name on the questionnaire (question number 6). An example drawing is included.

Please return the questionnaire by September 12th so we can move forward with the study.

Thank you for your time in completing the questionnaire. If you have any questions, please feel free to call me at (989) 754-4717 or email at petec@spicergroup.com.

Sincerely,

SPICER GROUP, INC.

Peter N. Chapman, P.E., CFM
Project Manager

cc: Steve May, Lenawee County Drain Commissioner
